1. Domicile and activities

Del Monte Pacific Limited (the "Company") was incorporated as an international business company in the British Virgin Islands on 27 May 1999 under the International Business Companies Act (Cap. 291) of the British Virgin Islands. It was automatically re-registered as a company on 1 January 2007 when the International Business Companies Act was repealed and replaced by the Business Companies Act 2004 of the British Virgin Islands.

The registered office of the Company is located at Craigmuir Chambers, Road Town, Tortola, British Virgin Islands.

The principal activity of the Company is investment holding. Its subsidiaries are principally engaged in growing, processing, and selling packaged fruits, vegetable and tomato, sauces, condiments, pasta, broth and juices, mainly under the brand names of "Del Monte", "S&W", "Today's", "Contadina", "College Inn" and other brands and fresh pineapples under "S&W" and other brands pursuant to relevant agreements. The Company's subsidiaries also produce and distribute private label food products.

The immediate holding company is NutriAsia Pacific Limited ("NAPL"), and the indirect shareholders of which are NutriAsia Inc. ("NAI") and Well Grounded Limited ("WGL"), which at 31 July 2023 and 30 April 2023, each held 57.8% and 42.2% interests in NAPL, respectively, through their intermediary company, NutriAsia Holdings Limited. NAPL, NAI and WGL were incorporated in the British Virgin Islands. The ultimate holding company is HSBC International Trustee Limited.

On 2 August 1999, the Company was admitted to the Official List of the Singapore Exchange Securities Trading Limited ("SGX-ST"). The Ordinary Shares of the Company were also listed on the Philippine Stock Exchange Inc. ("PSE") on 10 June 2013. The first tranche of the Company's Preference Shares (Series A-1) was listed on 7 April 2017 and the second tranche (Series A-2) on 15 December 2017. On 7 April 2022, the Company redeemed all of the outstanding 20,000,000 Series A-1 Preference Shares (see Note 16).

On 6 August 2010, the Company established DM Pacific Limited-ROHQ ("ROHQ"), the regional operating headquarters of the Company in the Philippines. The ROHQ is registered with and licensed by the Securities and Exchange Commission ("SEC") to engage in general administration and planning, business planning and coordination, sourcing and procurement of raw materials and components, corporate financial advisory, marketing control and sales promotion, training and personnel management, logistics services, research and product development, technical support and maintenance, data processing and communication, and business development. The ROHQ commenced its operations in October 2015.

The consolidated financial statements of the Group as at and for the periods ended 31 October 2023 and 2022 comprise the Company and its subsidiaries (together referred to as the "Group", and individually as "Group entities"), and the Group's interests in joint ventures.

2. Basis of preparation

2.1 Statement of compliance

The accompanying unaudited interim condensed consolidated financial statements as at 31 October 2023 and for the six months ended 31 October 2023 and 2022 have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. The unaudited interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the 2023 annual audited consolidated financial statements, comprising the consolidated statements of financial position as at 30 April 2023 and 2022 and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the years ended 30 April 2023, 2022, and 2021.

2.2 Basis of measurement

The unaudited interim condensed consolidated financial statements have been prepared on the historical cost basis except as otherwise described in the succeeding notes below.

2.3 Functional and presentation currency

These unaudited interim condensed consolidated financial statements are presented in United States dollars (US\$), which is the Company's functional currency. All financial information presented in US dollars has been rounded to the nearest thousand, unless otherwise stated.

2.4 Use of estimates and judgements

The preparation of the unaudited interim condensed consolidated financial statements in conformity with International Financial Reporting Standards (IFRS) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the unaudited interim condensed consolidated financial statements are included in the following notes:

Note 7 – Assessment of useful life of intangible assets with indefinite useful life

Note 30 – Determination of lease term of contracts with renewal options

Note 31 – Contingencies

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. There are no changes in significant judgment and estimate since 30 April 2023.

Information about assumptions and estimation uncertainties that have a significant risk resulting in a material adjustment within the next financial year are included in the following notes:

- Note 6 Useful lives of property, plant and equipment, revaluation of freehold land, estimate of harvest for bearer plant's depreciation
- Note 6 Impairment of property, plant and equipment
- Note 7 Useful lives of intangible assets and impairment of goodwill and intangible assets with infinite life
- Note 8 Recoverability of investments in joint ventures
- Note 10 Future cost of growing crops and fair value of livestock, harvested crops, and produce prior to harvest and future volume of harvest
- Note 11 Allowance for inventory obsolescence and net realizable value
- Note 12 Impairment of trade and nontrade receivables
- Note 18 Measurement of employee benefit obligations
- Note 19 Estimation of environmental remediation liabilities
- Note 20 Estimation of trade promotion accruals
- Note 22 Measurement of income tax
- Note 22 Realizability of deferred tax assets
- Note 25 Determination of fair values
- Note 30 Determination of incremental borrowing rate for lease liabilities
- Note 31 Contingencies

2.5 Going concern

The Group had negative working capital as of 31 October 2023 amounting to US\$14.5 million which was an improvement against the negative working capital of US\$205.3 million as of 30 April 2023. The negative working capital is attributable to the seasonal increase in inventories ready for the peak season.

Management believes that the Company will be able to pay or refinance its liabilities as and when they fall due. Accordingly, the use of going concern assumption is appropriate taking into account the following:

- The Group continues to find new sources of funding to improve cash management.
- The Group has sufficient credit lines available for drawdown and, as such, management believes that the Group will have sufficient working capital to enable the Group to meet its objectives and future financial obligations:
 - a. On 11 May 2023, the Company refinanced its US\$100 million facility with Bank of the Philippine Islands (BPI) that was due to mature on 15 May 2023 for an additional period of 18 months up to 15 November 2024.
 - b. On 25 May 2023, the Company obtained a loan amounting to US\$50.0 million from Union Bank of the Philippines. The loan matures on 25 May 2024.
 - c. The Group maintains a balance between continuity of cash inflows and flexibility in the use of available and collateral free credit lines from local and international banks. Currently, the Group excluding Del Monte Foods, Inc. (DMFI) is entitled to a total of US\$1,195.2 million in credit lines, of which 16% remain available. The Group constantly maintain good relations with its banks, such that additional facilities, whether for short or long-term requirements, may be made available.

- d. The Group is able to increase the commitments under the ABL Facility, such that the aggregate principal amount of commitments dues do not exceed US\$750 million.
- Despite a lower profit for the period, the Group's cash outflow from operations in the first half was US\$38.3 million, better versus last year's US\$153.4 million mainly driven by lower increase in inventory and accounts receivable. Lowering inventory and working capital is a key priority in FY2024 and FY2025.
- The Company had continued to receive dividend payments from its subsidiaries and expects the same in the next 12 months.

3. Significant accounting policies

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's 2023 annual consolidated financial statements, except for the adoption of the following amendments effective beginning 1 May 2023, which did not have any significant impact on the Group's financial position or performance, unless otherwise indicated:

Effective beginning on or after 1 May 2023

- Amendments to IAS 1 and IFRS Practice Statement 2, *Disclosure of Accounting Policies*. The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:
 - Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies, and
 - Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to IAS 1 are effective for annual periods beginning on or after 1 January 2023. Early application is permitted as long as this fact is disclosed. The amendments do not have a material impact on the Group.

Amendments to IAS 8, *Definition of Accounting Estimates*. The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after 1 January 2023 with earlier adoption permitted. The amendments do not have a material impact on the Group.

Amendments to IAS 12, Deferred Tax related to Assets and Liabilities arising from a Single Transaction. The amendments narrow the scope of the initial recognition exception under IAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after 1 January 2023.

■ IFRS 17. *Insurance Contracts*

IFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4, Insurance Contracts. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of IFRS 17 is the general model, supplemented by:

- a) A specific adaptation for contracts with direct participation features (the variable fee approach)
- b) A simplified approach (the premium allocation approach) mainly for short-duration contracts

IFRS 17 is effective for reporting periods beginning on or after 1 January 2023, with comparative figures required. Early application is permitted.

4. Operating segments

The Group has two types of operating segments: geographical and product. In identifying these operating segments, management generally considers geographical as its primary operating segment.

Geographical segments

Americas

Reported under the Americas segment are sales and profit on sales in USA, Canada and Mexico. Majority of this segment's sales are principally sold under the Del Monte brand but also includes products under the Contadina, S&W, College Inn and other brands. This segment also includes sales of private label food products. Sales in the Americas are distributed across the United States, in all channels serving retail markets, as well as to the US military, certain export markets, the foodservice industry and other food processors.

Asia Pacific

Reported under Asia Pacific are sales and profit on sales in the Philippines, comprising of Del Monte branded packaged products, including Del Monte traded goods, and Today's brand; S&W products in Asia and the Middle East both fresh and packaged; and Del Monte packaged products from the Philippines into Indian subcontinent as well as unbranded fresh and packaged goods.

Europe

Included in this segment are sales of S&W co-branded, buyers' own label and unbranded products in Europe.

Product segments

Meals and Meal Enhancers

The meals and meal enhancers segment includes sales and profit of packaged pineapples which are mainly used to enhance the flavor of different dishes, packaged vegetables, tomato-based products such as ketchup, tomato sauce, pasta sauce, recipe sauce, pizza sauce, pasta, broth and stock, and condiments under five brands, namely Del Monte, S&W, College Inn, Contadina and Kitchen Basics. Key products under this segment are packaged beans, packaged corn, broth and stock sold in the United States as well as canned pineapple and tomato-based products sold in the United States and Asia Pacific.

Snacking and Desserts

The snacking and desserts segment includes sales and profit of packaged fruits, including frozen, under the Del Monte, S&W, Joyba and Today's brands. This also includes the product innovations in the Philippines in the biscuits category and the Joyba beverages in the United States.

Beverage

Beverage includes sales and profit of 100% pineapple juice in can, juice drinks in various flavors in can, tetra and PET packaging, and pineapple juice concentrate.

Premium Fresh fruit

Fresh fruit and others include sales and profit of S&W branded fresh pineapples in Asia Pacific and buyer's label or non-branded fresh pineapples in Asia,

Europe

Total

Asia Pacific

Others

Includes all sales and profit of non-branded products, excluding fresh pineapples. This includes buyer's labels, that are packaged in different formats such as can, plastic cup, pouch and aseptic bag. This also includes sales of cattle in the Philippines. The cattle operation helps in the disposal of pineapple pulp, a residue of pineapple processing which is fed to the animals.

Major customer

Revenues from a major customer of the Americas segment for the three months and six months ended 31 October 2023 amounted to US\$198.2 million (31 October 2022: US\$162.2 million) and US\$346.3 million (31 October 2022: US\$279.0 million) representing 39.7% (31 October 2022: 32.0%) and 40.4% (31 October 2022: 34.4%) of the total Americas segment's net revenue, respectively.

5. Seasonality of operations

The Group's business is subject to seasonal fluctuations as a result of increased demand during the end of year festive season. For Americas, products are sold heavily during the Thanksgiving and Christmas seasons. As such, the Group's sales are usually highest during the five months from August to December.

The Group operates 11 production facilities in the USA, Mexico, and the Philippines as at 31 October 2023 and 30 April 2023. Fruit plants are located in California and Washington in the United States and in the Philippines. Most of its vegetable plants are located in the U.S. Midwest and its tomato plant are located in California.

The US Consumer Food Business has a seasonal production cycle that generally runs between the months of June and October. This seasonal production primarily relates to the majority of processed fruit, vegetable and tomato products, while some of its processed fruit and tomato products and its *College Inn* broth products are produced throughout the year. Additionally, the Consumer Food Business has contracts to co-pack certain processed fruit and vegetable products for other companies.

Goodwill

Goodwill arising from the acquisition of Consumer Food Business was allocated to Del Monte Foods, Inc. (DMFI) and its subsidiaries, which is considered as one cash generating unit ("CGU").

Indefinite life trademarks

Management has assessed the following trademarks as having indefinite useful lives as the Group has exclusive access to the use of these trademarks. These trademarks are expected to be used indefinitely by the Group as they relate to continuing businesses that have a proven track record with stable cash flows.

America trademarks

The indefinite life trademarks of US\$394.0 million arising from the acquisition of Consumer Food Business relate to those of DMFI for the use of the "Del Monte" trademarks in the United States and South America market, and the "College Inn" trademark in the United States, Australia, Canada and Mexico.

The "Kitchen Basic" trademark in the United States and Canada was estimated to have an indefinite useful life and was valued at US\$53.7 million.

On 3 August 2022, the Group has acquired certain assets associated with the Kitchen Basics brand of ready-to-use stock and broth from McCormick & Company for a consideration of US\$100.4 million (including transaction costs totalling US\$1.4 million). Kitchen Basics products are distributed nationally in the United States and include a range of conventional and organic stock and broth offerings.

The acquisition is consistent with DMFI's overall growth strategy, as it focuses on innovation, renovation and customization of its iconic brand portfolio. Kitchen Basics will join Del Monte's brand portfolio as the Company expands its retail presence in the category. The assets acquired comprise of intangible assets amounting to US\$72.8 million and inventories of US\$27.6 million. The purchase price (including transaction costs) is allocated based on the fair value of the assets acquired as determined by the third-party valuer.

The acquisition was treated as an asset acquisition since the acquisition did not come with any physical workforce, research and development, and management.

The Philippines trademarks

On 1 May 2020, Dewey Sdn Bhd., assigned to Philippine Packing Management Services Corporation, various trademarks which include the "Del Monte" and "Today's" trademarks for use in connection with processed foods in the Philippines ("The Philippines trademarks") with carrying value amounting to US\$1.8 million.

Indian sub-continent trademark

In November 1996, a subsidiary, Del Monte Pacific Resources Limited (DMPRL), entered into an agreement with an affiliated company to acquire the exclusive right to use the "Del Monte" trademarks in the Indian sub-continent territories and Myanmar in connection with the production, manufacture, sale and distribution of food products and the right to grant sub-licenses to others ("Indian sub-continent trademark"). In 2007, the Company acquired shares in Del Monte Foods Private Limited (DMFPL) (formerly FieldFresh Foods Private Limited (FFPL)) and caused the licensing of trademarks to DMFPL to market its products under the "Del Monte" brand in India. These trademarks have a carrying value of US\$4.1 million.

Asia S&W trademark

In November 2007, a subsidiary, S&W Fine Foods International Limited (S&W), entered into an agreement with Del Monte Corporation to acquire the "S&W" trademarks in certain countries in Asia (excluding Australia and New Zealand and including the Middle East), Western Europe and Eastern Europe for a total consideration of US\$10.0 million. The trademark has a carrying value of US\$8.2 million.

Impairment test

Management performs an annual impairment testing for all indefinite life trademarks every end of the year. There were no impairment indicators identified.

The amortizable trademarks relate to the exclusive right to use of the "S&W" trademark in the United States, Canada, Mexico and certain countries in Central and South America and "Contadina" trademark in the United States, Canada, Mexico, South Africa and certain countries in Asia Pacific, Central America, Europe, Middle East and South America market.

Customer relationships and others

Customer relationships relate to the network of customers where DMFI has established relationships with the customers, particularly in the United States market, through contracts.

Source of estimation uncertainty

The Group estimates the useful lives of its amortizable trademarks and customer relationships based on the period over which the assets are expected to be available for use. The estimated useful lives of the trademarks and customer relationships are reviewed periodically and are updated if expectations differ from previous estimates due to legal or other limits on the use of the assets. A reduction in the estimated useful lives of amortizable trademarks and customer relationships would increase recorded amortization expense and decrease noncurrent assets.

Determination of Joint Control and the Type of Joint Arrangement

Joint control is presumed to exist when the investors contractually agreed sharing of control on an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Management has assessed that it has joint control in all joint arrangements.

The Group determines the classification of a joint venture depending upon the parties' rights and obligations arising from the arrangement in the normal course of business. When making an assessment, the Group considers the following:

- (a) the structure of the joint arrangement.
- (b) when the joint arrangement is structured through a separate vehicle:
 - i. the legal form of the separate vehicle;
 - ii. the terms of the contractual arrangement; and
 - iii. when relevant, other facts and circumstances.

The Group determined that the arrangements in DMFPL, NFHKL and DVDPI are joint ventures as these were structured in separate legal vehicles that have rights to the net assets of the arrangements. The terms of the contractual arrangements do not specify that the parties have rights to the assets and obligations for the liabilities relating to the arrangements.

Source of Estimation Uncertainty

In the event a joint venture has suffered recurring operating losses, a test is made to assess whether the investment in joint venture has suffered any impairment by determining the recoverable amount. This determination requires significant judgement and estimation. An estimate is made on the future profitability, cash flow, financial health and near-term business outlook of the joint venture, including factors such as market demand and performance. The recoverable amount will differ from these estimates as a result of differences between assumptions used and actual operations.

From the time the investment in DMFPL was made, the Indian sub-continent trademark (Note 7) and such investment were allocated to the Indian sub-continent cash-generating unit ("Indian sub-continent CGU"). The recoverable amount of Indian sub-continent CGU was estimated using the discounted cash flows based on five-year cash flow projections.

9. Other noncurrent assets

Advance rentals and deposits consist of rent payments related to lease contracts which will commence beyond one year from the reporting period, as well as security deposits made for lease contracts entered by the Group.

Investment in unquoted equity shares represent total financial assets carried at fair value through other comprehensive income. The unquoted investments relate to equity shares of an entity incorporated in Switzerland.

Excess insurance relates mainly to reimbursements from insurers to cover certain workers' compensation claims liabilities.

Advances to suppliers represents advance payments made on capital projects

Receivable from sale and leaseback is the noncurrent portion of receivable relating to certain assets sold to DMPI Employees Agrarian Reform Beneficiaries Cooperation ("DEARBC") and subsequently leased back to the Group in fiscal year 2021. The current portion of US\$0.1 million is presented under "Trade and other receivables".

Total cost of inventories carried at net realizable value amounted to US\$132.8 million as at 31 October 2023 (30 April 2023: U\$138.6 million).

Inventories are stated after allowance for inventory obsolescence. Movements in the allowance for inventory obsolescence during the period/year are as follows:

	Note	31 October 2023 US\$'000	30 April 2023 US\$'000
At beginning of the period/year		12,737	6,464
Allowance for the period/year	26	8,389	9,542
Write-off against allowance		(1,043)	(2,585)
Currency realignment		446	(684)
At end of the period/year		20,529	12,737

The allowance for inventory obsolescence recognized during the period is included in "Cost of sales".

Source of estimation uncertainty

The Group recognizes allowance on inventory obsolescence when inventory items are identified as obsolete. Obsolescence is based on the physical and internal condition of inventory items. Obsolescence is also established when inventory items are no longer marketable. Obsolete goods when identified are charged to the consolidated statements of income and are written off. In addition to an allowance for a specifically identified obsolete inventory, estimation is made on a group basis based on the age of the inventory items. The Group believes such estimates represent a fair charge of the level of inventory obsolescence in a given period. The Group reviews on a monthly basis the condition of its inventory. The assessment of the condition of the inventory either increases or decreases the expenses or total inventory.

Estimates of net realizable value are based on the most reliable evidence available at the time the estimates are made of the amount the inventories are expected to be realized. These estimates take into consideration fluctuations of price or cost directly relating to events occurring after reporting date to the extent that such events confirm conditions existing at the reporting date.

The Group reviews on a continuous basis the product movement, changes in customer demands and introductions of new products to identify inventories which are to be written down to its net realizable values. The write-down of inventories is reviewed periodically to reflect the accurate valuation in the financial records. An increase in write-down of inventories would increase the recorded cost of sales and decrease current assets.

12. Trade and other receivables

	31 October 2023 US\$'000	30 April 2023 US\$'000
Trade receivables	248,500	195,335
Nontrade receivables	33,075	45,346
Allowance for expected credit loss – trade	(5,292)	(5,328)
Allowance for expected credit loss – nontrade	(4,318)	(4,317)
Trade and other receivables	271,965	231,036

Set out below is the expected credit risk exposure on the Group's trade receivables using simplified approach (provision matrix):

31 October 2023

Days past due

	Current	30-60 days	61-120 days	Over 120 days	Total

Expected credit loss rate	0.00%	0.00%	0.00%	20.90%	
Expected credit loss	-	-	=	5,292	5,292

	30 April 2023 Days past due					
	Current	30-60 days	61-120 days	Over 120 days	Total	
	US'000s	US'000s	US'000s	US'000s	US'000s	
Trade receivables	3,667	1,436	944	16,983	25,595	
Expected credit loss rate	0.00%	0.00%	0.00%	25.44%		
Expected credit loss				4,318	4,318	

The recorded allowance for expected credit loss falls within the Group's historical experience in the collection of trade and other receivables. Therefore, Management believes that there is no significant additional credit risk beyond what has been recorded.

Source of estimation uncertainty

The Group maintains an allowance for impairment of accounts receivable at a level considered adequate to provide for potential uncollectible receivables based on the applicable expected credit loss (ECL) methodology. The level of this allowance is evaluated by the Group on the basis of factors that affect the collectability of the accounts. These factors include, but are not limited to, the length of the Group's relationship with debtors, their payment behavior and known market factors. The Group reviews the age and status of receivables, and identifies accounts that are to be provided with allowance on a continuous basis. Additionally, allowance is also determined, through a provision matrix based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The amount and timing of recorded expenses for any period would differ if the Group made different judgement or utilized different estimates. An increase in the Group's

allowance for impairment would increase the Group's recorded operating expenses and decrease current assets.

13. Prepaid expenses and other current assets

	31 October 2023 US\$'000	30 April 2023 US\$'000

Derivative asset	5,114	2,678
Short-term placements	_	18
Others	2,448	613
	60,332	59,667

Prepaid expenses consist of advance payments for insurance, advertising, rent and taxes, among others.

Down payment to contractors and suppliers pertains to advance payments for the purchase of materials and supplies that will be used for operations.

Short-term placements in April 2023 have maturities of 4-6 months and earn interest at 0.75%-0.875% per annum.

Derivative

The Group uses interest rate caps, commodity swaps and foreign currency forward contracts to hedge market risks relating to possible adverse changes in interest rates, commodity costs and foreign currency exchange rates. The Group continually monitors its positions and the credit rating of the counterparties involved to mitigate credit exposure to any one party.

As at 31 October 2023 and 30 April 2023, the Group designated each of its derivative contracts, as a hedge of a highly probable forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability ("cash flow hedge").

The following fair value of cash flow hedges were outstanding for the Group:

	Note	31 October 2023 US\$'000	30 April 2023 US\$'000
Commodity contracts		1,223	(3,928)

Gas (oil barrels)	_	47

Foreign Currency

From time to time, the Group manages its exposure to fluctuations in foreign currency exchange rates by entering into forward contracts to cover a portion of its projected expenditures paid in local currency. These contracts may have a term of up to 24 months. The Group accounted for these contracts as cash flow hedges.

Cash on hand	82	84
Cash in banks	25,358	19,392
Cash equivalents	3,225	360
Cash and cash equivalents	28,665	19,836

Certain cash in bank accounts earn interest at floating rates based on daily bank deposit rates ranging from 0.01% to 0.50% per annum for the period 31 October 2023 (30 April 2023: 0.01% to 0.50% per annum). Cash equivalents are short-term placements which are made for varying periods of up to three months depending on the immediate cash requirements of the Group and earn interest rate of 3.94% to 6.10% per annum in fiscal year 2024 (30 April 2023: 0.75% to 4.90% per annum).

15. Reserves

	(25,055)	(28,511)

The translation reserve comprises foreign exchange differences arising from the translation of the financial statements of subsidiaries and joint ventures with functional currencies other than US dollar.

The remeasurement of retirement plan relates to actuarial gains and losses for the defined benefit plans and return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset).

The revaluation reserve relates to surplus on the revaluation of freehold land of the Group.

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of hedging instruments used in cash flow hedges pending subsequent recognition in profit or loss as the hedged cash flows affect the consolidated statements of income of the Group.

The reserve for the Company's own shares comprises the cost of the Company's shares held by the Group. As at 31 October 2023 and 30 April 2023, the Group held 975,802 of the Company's shares.

DMPI

On 31 October 2023, DMPI obtained a long-term loan facility with BDO amounting to US\$102.1 million (Php5.8 billion) payable over thirteen equal quarterly installments with the first repayment date due in October 2025 and last repayment date due in October 2028 at a variable interest rate (October 2023: 7.48% per annum) to finance payment of the three-year Php5.8 billion bonds.

On 31 October 2023, DMPI obtained a long-term loan facility with DBP amounting to US\$52.8 million (Php3.0 billion) payable over twelve equal quarterly installments with the first repayment date due in January 2026 and last repayment date due in October 2028 at a variable interest rate (October 2023: 7.25% per annum) for general corporate requirements and to refinance existing debts.

DMFI Term Loan B

DMFI is a party to a Term Loan B agreement with the lenders party thereto, Goldman Sachs Bank USA as administrative agent and as collateral agent, that provided for a total term loan of US\$725.0 million with a term of seven years. The initial term loan amounting to US\$600.0 million was obtained on 16 May 2022 and additional term loan amounting to US\$125.0 million was obtain on 7 February 2023. The term loan will mature on 16 May 2029.

The term loans bear an interest equal to the adjusted term SOFR plus a spread adjustment of 0.10% and margin of 4.25%. As of 31 October 2023, the interest rate for the Term Loan is 9.67% per annum. Interest is initially payable monthly and can be paid quarterly at DMFI's option.

ABL Credit Agreement

Prior to fiscal year 2021, DMFI was a party to a credit agreement (the "ABL Credit Agreement") with Citibank, N.A., as administrative agent, and the other lenders and agents parties thereto, as amended, which provided for senior secured financing of up to US\$442.6 million (with all related loan documents, and as amended from time to time, the ABL Facility) with a term of five years until 18 February 2019, prior to an amendment in 2018

On 15 May 2020, DMFI entered into an agreement to refinance the ABL Credit Agreement with JP Morgan Chase as the administrative agent, and other lenders and agents parties thereto, to provide for senior secured financing of up to US\$450.0 million, subject to availability under the borrowing base, with a term of three years until 15 May 2023. On 15 May 2020, US\$100.2 million was drawn under this facility. Loans under the ABL Credit Agreement interest based on either the Eurodollar rate or the alternative base rate, plus an applicable margin. Additionally, the Group fully amortized the remaining deferred financing fees related to the previous credit agreement of \$1.0 million for the year ended 30 April 2020.

On 29 April 2021, the ABL Credit Agreement was extended to five years to the earliest of (a) 29 April 2026 and (b) 91 days prior to the maturity of the Senior Secured Notes or any Refinancing Indebtedness in respect thereof.

As at 31 October 2023, there were US\$708.2 million (30 April 2023: US\$465.0 million) of loans outstanding and US\$23.5 million of letters of credit issued (30 April 2023: US\$24.3 million). The net availability to DMFHL Group under the ABL Credit Agreement was US\$18.2 million as at 31 October 2023 (30 April 2023: US\$135.7 million). The weighted average interest rate was approximately 7.90% on 31 October 2023 (30 April 2023: 7.32%). The ABL Credit Agreement provided for a sub limit for letters of credit and for borrowings on same day notice, referred to as "swingline loans."

Security interests

The ABL Credit Agreement is generally secured by a first priority lien on DMFI's inventories and accounts receivable and by a third priority lien on substantially all other assets excluding real estate.

Restrictive and Financial Covenants. The ABL Credit Agreement includes restrictive covenants limiting the Group's ability, and the ability of the Group's restricted subsidiaries, to incur additional indebtedness, create liens, engage in mergers or consolidations, sell or transfer assets, pay dividends and distributions or repurchase the Group's capital stock, make investments, loans or advances, prepay certain indebtedness, engage in certain transactions with affiliates, amend agreements governing certain subordinated indebtedness adverse to the lenders, and change the Group's lines of business.

Financial Maintenance Covenants. The ABL Credit Agreement generally does not require that the DMFHL Group including DMFI comply with financial maintenance covenants.

Effect of Restrictive and Financial Covenants. The restrictive and financial covenants in the ABL Credit Agreement may adversely affect DMFI's ability to finance its future operations or capital needs or engage in other business activities that may be in its interest, such as acquisitions.

The Group is compliant with the ABL Credit Agreement loan covenants as of 31 October 2023 and 30 April 2023.

Unsecured Bank Loans

Certain unsecured bank loan agreements contain various affirmative and negative covenants that are typical of these types of facilities such as financial covenants relating to required debt-toequity ratio, interest cover and maximum annual capital expenditure restrictions. covenants include requirements for delivery of periodic financial information and restrictions and limitations on indebtedness, investments, acquisitions, guarantees, liens, asset sales, disposals, mergers, changes in business, dividends and other transfers.

17. Other noncurrent liabilities

Workers' compensation	14,192	13,268
Accrued vendors liabilities	437	461
Derivative liabilities		3,097
	14,629	16,826

Workers' compensation would cover liabilities for wage replacement and medical benefits to employees injured in the course of employment in exchange for mandatory relinquishment of the employee's right to sue his or her employer for tort or negligence.

The current portion of workers' compensation is included in "Trade and other current liabilities" in the consolidated statement of financial position (see note 20).

18. Employee Benefits

Certain Group companies contribute to the post-employment defined benefit plans such as the following:

The DMPI Multi Employer Retirement Plan

DMPI has both funded defined benefit and defined contribution retirement plans (collectively the "Plan") which cover all of its regular employees as well as of those under DMPL - ROHQ. Contributions and costs are determined in accordance with the actuarial study made for the Plan. Annual cost is determined using the projected unit credit method. DMPI's latest actuarial valuation date was 30 April 2023. Valuations are obtained on a periodic basis.

Starting on the date of membership of an employee in the Plan, DMPI shall contribute to the retirement fund 7.00% of the member's salary as defined every month. In addition, DMPI shall contribute periodically to the fund the amounts which may be required to meet the guaranteed minimum benefit provision of the plan. Such contributions shall not be allocated nor credited to the individual accounts of the members, but shall be retained in a separate account to be used in cases where the guaranteed minimum benefit applies.

Benefits are based on the total amount of contributions and earnings credited to the personal retirement account of the plan member at the time of separation or the 125% of the final basis salary multiplied by the number of credited years of service under the plan, whichever is higher. The manner of payment is lump sum, payable immediately.

The retirement plan meets the minimum retirement benefit specified under Republic Act (RA) No. 7641, The Philippine Retirement Pay Law.

The fund is administered by a trustee bank under the supervision of the Board of Trustees of the Plan which is responsible for the Plan's investment strategy.

DMPI does not expect to make contributions to the plan in fiscal year 2024.

The DMFI Plan

DMFI sponsors a qualified defined benefit pension plan (the "DMFI Plan") and several unfunded defined benefit post-retirement plans providing certain medical, dental, and life insurance benefits to eligible retired, salaried, non-union hourly and union employees. The DMFI Plan comprises of two parts:

- The first part is a cash balance plan ("Part B") which provides benefits for eligible salaried employees and provides that a participant's benefit derives from the accumulation of monthly compensation and interest credits. Compensation credits are calculated based upon the participant's eligible compensation and age each month. Interest credits are calculated each month by applying an interest factor to the previous month's ending balance. Participants may elect to receive their benefit in the form of an annuity or a lump sum. Part B of the plan was frozen to new participants effective 31 December 2016, which the active participation of certain participants was grandfathered subject to meeting participation requirements.
- The second part is an arrangement which provides for grandfathered and suspended hourly participants a traditional pension benefit based upon service, final average compensation and This plan was frozen since 31 December 1995, which the active age at termination. participation of certain participants was grandfathered and the active participation of other participants was suspended.

DMFI currently meets and plans to continue to meet the minimum funding levels required under local legislation, which imposes certain consequences on DMFI's defined benefit plan if it does not meet the minimum funding levels. DMFI has not made any contributions during the three months ended 31 July 2023 and fiscal year 2024.

In fiscal year 2020, there were amendments to the DMFI Plan and the post-retirement benefit plan. Under these DMFI Plan amendments, certain benefits were eliminated effective 31 December 2019 and 30 April 2022 and the plan obligations associated with these amendments decreased by US\$9.1 million. Under the post-retirement amendments, certain benefits will be eliminated effective 30 April 2022 and the plan obligations associated with this amendment would be decreased by US\$5.9 million. Both amendments were recognized immediately in "General and administrative expenses" in the fiscal year 2020 consolidated statements of income.

DMFI does not expect to make contributions to the plan in fiscal year 2024.

Sources of estimation uncertainty

The Group has exposure to income taxes in several foreign jurisdictions. Significant judgement is involved in determining the group-wide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognized, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

23. Stock option and incentive plans

The Company adopted the Del Monte Pacific Executive Share Option Plan 2016 ("ESOP 2016"), which was approved by the shareholders at the general meeting held on 30 August 2016. The purpose of the ESOP 2016 is to provide an opportunity for Group executives and directors to participate in the equity of the Company in order to motivate them to excel in their performance. The ESOP 2016 shall be valid for a period of 10 years; however, it has yet to be implemented, and no options had been granted to date.

The ESOP 2016 is administered by the Remuneration Share Option Committee (RSOC).

25. Determination of fair values

Fair value hierarchy

The table below analyses recurring non-financial assets carried at fair value. The different levels are defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing the categorization at the end of each reporting period.

For purposes of the fair value disclosure, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

During the period, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods.

Financial instruments measured at fair value

Type	Valuation technique
Interest rate swaps/caps	Market comparison technique: The fair values are calculated using a discounted cash flow analysis based on terms of the swap contracts and the observable interest rate curve. Fair values reflect the risk of the instrument and include adjustments to take into account the credit risk of the Group and counterparty when appropriate.
Commodities contracts	Market comparison technique. The commodities are traded over-the-counter and are valued based on the Chicago Board of Trade quoted prices for similar instruments in active markets or corroborated by observable market data available from the Energy Information Administration. The values of these contracts are based on the daily settlement prices published by the exchanges on which the contracts are traded.
Call option	The estimated fair value of the additional call option as at 31 October 2023 is based on the Black-Scholes model. The value of these derivative liabilities is driven primarily by DMPI's forecasted net income which is not based on observable market data.

Financial instruments not measured at fair value

Type	Valuation technique
Financial liabilities, note	The fair value of the secured senior notes, first lien term loans, second
receivable and refundable	lien term loans, note receivable and refundable deposits are calculated
deposits	based on the present value of future principal and interest cash flows,
	discounted at the market rate of interest at the reporting date (Level 2).

As at 31 October 2023 and for the three-month and six-month periods ended 31 October 2023 and 2022

Other financial assets and liabilities	The notional amounts of financial assets and liabilities with maturity of less than one year (including trade and other receivables, cash and
	cash equivalents, and trade and other payables) are, because of the short period to maturity, assumed to approximate their fair values.

Other non-financial assets

Assets	Valuation technique	Significant unobservable inputs
Freehold land	The fair value of freehold land is determined by external, independent property valuers, having appropriate recognized professional qualifications and recent experience in the location and category of property being valued. The valuation method used is sales comparison approach. This is a comparative approach that consider the sales of similar or substitute properties and related market data and establish a value estimate by involving comparison (Level 3).	The unobservable inputs used to determine market value are the net selling prices, sizes, property location and market values. Other factors considered to determine market value are the desirability, neighborhood, utility, terrain, and the time element involved. The market value per square meter ranges from US\$109.1 to US\$122.5. The market value per acre ranges from US\$5,251 to US\$104,585.
Livestock (cattle for slaughter and cut meat)	Sales Comparison Approach: the valuation model is based on selling price of livestock of similar age, weight, breed and genetic make-up (Level 3).	The unobservable inputs are age, average weight and breed.
Harvested crops – sold as fresh fruit	The fair values of harvested crops are based on the most reliable estimate of selling prices, in both local and international markets at the point of harvest. The market price is derived from average sales price of the fresh fruit reduced by costs to sell (Level 3).	The unobservable input is the estimated pineapple selling price per ton specific for fresh products.
Harvested crops – used in processed products	The fair values of harvested crops are based on the most reliable estimate of market prices, in both local and international markets at the point of harvest. The market price is derived from average sales price of the processed product reduced by costs to sell (concentrates, pineapple beverages, sliced pineapples, etc.) and adjusted for margin associated to further processing (Level 3).	The unobservable input is the estimated pineapple selling price and gross margin per ton specific for processed products.
Unharvested crops – fruits growing on the bearer plants	The growing produce are measured at fair value from the time of maturity of the bearer plant until harvest. Management used future selling prices and gross margin of finished goods, adjusted to remove the margin associated to further processing, less future growing costs applied to the estimated volume of harvest as the basis of fair value.	The unobservable inputs are expected selling price and gross margin for harvested produce while key assumptions for the fair value of produce prior to harvest include expected selling prices, gross margin, estimated tonnage of harvests and future growing costs. The unobservable inputs are estimated pineapple selling price

Dividends

On 20 June 2023, the Company declared dividends of US\$0.0013 per share to ordinary shareholders on record as at 11 July 2023. The dividend was paid on 25 July 2023.

No dividends were declared for the six-month period ended 31 October 2023. The Group generally declares dividends based on year-end full year results. The last dividend declaration was in June 2023 based on FY2023 results and paid on 25 July 2023.

Capital management

The Board of Directors' policy is to maintain a sound capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group's capital comprises its share capital, retained earnings and total reserves as presented in the consolidated statements of financial position. The Board monitors the return on capital, which the Group defines as profit or loss for the year divided by total shareholders' equity. The Board also monitors the level of dividends paid to ordinary shareholders.

The bank loans of the Group contain various covenants with respect to capital maintenance and ability to incur additional indebtedness. The Board ensures that loan covenants are considered as part of its capital management through constant monitoring of covenant results through interim and full year results.

There were no changes in the Group's approach to capital management during the fiscal year.

31. Commitments and contingencies

Purchase commitments

The Group had entered into non-cancellable agreements with growers, co-packers, packaging suppliers and other service providers with commitments generally ranging from one year to ten years, to purchase certain quantities of raw products, including fruit, vegetables, tomatoes and packaging services. As at the reporting date, the Group has commitments for future minimum payments under non-cancellable agreements at approximately US\$791.3 million.

Contingencies

As at 31 October 2023, the Group is involved in various legal proceedings and regulatory assessments, and management believes that these proceedings will not have a material effect on the consolidated financial statements.

The Group, in consultation with its external and internal legal and tax counsels, believe that its position on these assessments are consistent with relevant laws and believe that these proceedings will not have a material adverse effect on the consolidated financial statements. However, it is possible that future results of operations could be materially affected by changes in the estimates or the effectiveness of management's strategies relating to these proceedings. As at 31 October 2023, management has assessed that the probable cash outflow to settle these assessments is not material.

32. Related parties

Related party transactions

For the purposes of these consolidated financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

Other than disclosed elsewhere in the consolidated financial statements, transactions with related parties are as follows:

The transactions with related parties are carried out on an arms-length basis and on normal commercial terms consistent with the Group's usual business practices and policies, which are generally no more favorable to the related parties than those extended to unrelated parties. Pricing for the sales of products is market driven, less certain allowances in accordance with applicable business norms. For purchases, the Group's policy is governed by the same internal control procedures which detail matters such as the constitution of internal approving authorities, their monetary jurisdictions, the number of vendors from whom bids are to be obtained and the review procedures. The guiding principle is to objectively obtain the best products and/or services on the best possible terms.

All outstanding balances at financial reporting date are unsecured, interest-free, to be settled in cash, and are collectible or payable on demand. As at 31 October 2023 and 30 April 2023, the Group has not made any provision for ECL relating to amounts owed by related parties.

34. Share Purchase Agreement and Shareholders' Agreement with Sea Diner Holdings (S) Pte. Ltd.

On 24 January 2020, the Company, Central American Resources, Inc ("CARI"), Del Monte Philippines, Inc. ("DMPI") and SEA Diner, a company incorporated in Singapore, entered into a Share Purchase Agreement and Shareholders' Agreement pursuant to which and subsequent arrangements, CARI agreed to sell 335,678,400 existing common shares equivalent to 12% ownership interest in DMPI to SEA Diner for a consideration of US\$120.0 million, subject to fulfilment of certain conditions precedent. These common shares were convertible to voting, convertible, participating and redeemable convertible preferred shares ("RCPS") of DMPI.

The Board and the stockholders of DMPI approved the conversion of the convertible common shares to RCPS subject to the completion of the transaction and the Enabling Resolutions which further defined the terms of the RCPS on 3 March 2020. As at 30 April 2020, the Company, CARI and DMPI had fulfilled the conditions precedent under the Share Purchase Agreement. The private placement transaction closed on 20 May 2020.

Terms of the RCPS

The terms of the RCPS are as follow:

- The RCPS holders participate in the dividends on an as-converted basis, that is, if common shareholders are entitled to dividends, then the RCPS holders will correspondingly be entitled to dividends on an as-converted basis.
- The investor as an RCPS holder will have proportional shareholder voting rights in DMPI on an as-converted basis. There will also be certain reserved matters (for example, matters not in the ordinary course of business) which the investor will have the right to approve.
- SEA Diner, as long as it holds RCPS, may, at any time, exercise its right to convert the RCPS into common shares of DMPI at a ratio of one (1) RCPS to one (1) common share of DMPI. The RCPS is automatically converted into common share in the event of IPO of DMPI.
- Upon the occurrence of any of certain agreed "RCPS Default Events", SEA Diner may require the Company, CARI or DMPI to redeem all of the RCPS at the agreed redemption price, which is the amount of RCPS consideration plus the agreed rate of return (compounded on a per annum basis) calculated from 20 May 2020 up to the date of redemption.
- In case of "Other Redemption Events", redemption shall be subject to the mutual agreement of the parties. If DMPI does not consent to the RCPS holder's written redemption request, the internal rate of return would be increased annually by 3%, and this increased rate of return shall apply for each year that the RCPS remain outstanding and shall be compounded on a per annum basis.

On 3 August 2020, the SEC approved the amendment of DMPI's Articles of Incorporation to reflect the conversion of 335,678,400 convertible common shares to RCPS and the removal of the conversion feature of the remaining convertible common shares.

On 16 December 2020, CARI sold additional 27,973,200 common shares of DMPI to SEA Diner for US\$10 million, which increased the ownership of SEA Diner in DMPI to 13%.

On 1 March 2021, the SEC approved the amendment of DMPI's Articles of Incorporation to change DMPI's Php 3 billion authorized capital stock (previously comprising common shares and RCPS) to all common shares with a par value of Php 1 per share. Consequently, the 335,678,400 RCPS issued to SEA Diner were converted to 335,678,400 common shares.

As at 30 April 2020 up to the time the RCPS were converted back to common shares on 2 March 2021, the Group was in compliance with the terms set out for the RCPS.

Call Option Agreement

On 24 July 2020, the Company, CARI, DMPI and SEA Diner entered into a call option agreement wherein SEA Diner would be entitled to a call option or the right to buy from CARI additional DMPI shares ("Option Shares"). The exercise price for each Option Share is US\$0.357 (computed based on the DMPI equity valuation of US\$1 billion / existing total issued share capital of the DMPI shares of 2,797,320,003 as at the date of the Agreement).

The call option is exercisable within the Option Period which means:

(A) commencing on:

- (i) in the event where an IPO of DMPI is consummated on or before 30 April 2022, and:
 - (a) such IPO of DMPI is consummated at a price per DMPI share which implies an IPO pre-money market capitalization of US\$2,000,000,000 or lower, the date on which such IPO of DMPI is consummated; or
 - (b) such IPO of DMPI is consummated at a price per DMPI share which implies an IPO pre-money market capitalisation of more than US\$2,000,000,000 and following such IPO, the SEA Diner sells any DMPI shares at a price per DMPI share which implies that DMPI's valuation is at or lower than an IPO pre-money market capitalisation of US\$2,000,000,000, the date on which the SEA Diner makes such sale of DMPI shares; or
- (ii) 30 April 2022, if DMPI does not consummate an IPO on or before 30 April 2022; and
- (B) ending on the earliest of:
 - (i) the date falling ten (10) years after the date of completion of the closing date;
 - (ii) the date falling five (5) years after the consummation of an IPO of DMPI; and
 - (iii) the date on which the SEA Diner receives an amount in respect of a redemption of its DMPI shares pursuant to the Agreement that provides the SEA Diner with a rate of return of no less than eight (8) per cent.

Source of estimation uncertainty

The fair value of the derivative liability related to the call option is measured using Black-Scholes model. The inputs to this model are taken from a combination of observable markets and unobservable market data. Changes in inputs about these factors could affect the reported fair value of the derivative liabilities and impact profit or loss. Management assessed that the fair value of the derivative liability is nil as at 31 October 2023 and 30 April 2023 as the estimated pre-money market capitalization is higher than the threshold in the Call Option Agreement

35. Subsequent Events

In November 2023, the Company obtained a loan amounting to US\$20.0 million from DBP. The loan matures on 16 November 2026. The proceeds were used by the Company to refinance its existing debt.

36. Other Matters

- a. There were no known trends, demands, commitments, events or uncertainties that will have a material impact on the Group's liquidity.
- b. There were no known trends, events or uncertainties that have had or that are reasonably expected to have a favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- c. Other than those disclosed in other notes, there were no known events that will trigger direct or contingent financial obligation that is material to the Group, including any default or acceleration of an obligation and there were no changes in contingent liabilities and contingent assets since the last annual consolidated statements of financial position date
- d. There were no material off-statements of financial position transactions, arrangements, obligations (including contingent obligations), and other relationship of the Group with unconsolidated entities or other persons created during the reporting period.
- e. The effects of seasonality or cyclicality on the interim operations of the Group's businesses are explained in Note 5, Seasonality of operations.
- f. The Group's material commitments for capital expenditure projects have been approved but are still ongoing and not yet completed as of end of 31 October 2023 These consist of construction, acquisition, upgrade or repair of fixed assets needed for normal operations of the business. The said projects will be carried forward to the next quarter until its completion. The fund to be used for these projects will come from available cash, short-term loans and long-term loans.
- g. The Group is the subject of, or a party to, various suits and pending or threatened litigations. While it is not feasible to predict or determine the ultimate outcome of these matters, the Group believes that none of these legal proceedings will have a material adverse effect on its consolidated financial position.
- h. The retained earnings is restricted for the payment of dividends to the extent representing the accumulated equity in net earnings of the subsidiaries and unrealized asset revaluation reserve. The accumulated equity in net earnings of the subsidiaries is not available for dividend distribution until such time that the Company receives the dividends from the subsidiaries.

Key Performance Indicators

The following sets forth the explanation why certain performance ratios (i.e., current ratio, debt to equity ratio, net profit margin, return on asset, and return on equity) do not fall within the benchmarks indicated by SEC.

A. Current Ratio

	31-Oct-23	31-Oct-22	30-Apr-23	Benchmark
Current Ratio	0.9921	0.9954	0.8746	Minimum of 1.20

Higher current ratio was mainly driven by refinancing of currently maturing loans through long-term financing, which improved current liabilities vs current assets.

B. Net Debt to Equity*

	31-Oct-23	31-Oct-22	30-Apr-23	Benchmark
Net Debt to Equity	6.8572	4.5100	5.8418	Maximum of 2.50

Higher net debt to equity driven by higher loans to refinance in Dec 2022 the redemption of US\$100m DMPL Series A-2 preference shares with coupon of 10% if not redeemed. New loans are at lower interest rate of 7.6% (at end of October) and working capital loans of DMFI due to higher inventory.

C. Net Profit Margin

	31-Oct-23	31-Oct-22	30-Apr-23	Benchmark
Net Profit Margin attributable to owners of the company	-1.82%	1.64%	1.05%	Minimum of 3%

Net loss for the year was driven by lower operating results and higher interest expense.

D. Return on Asset**

	31-Oct-23	31-Oct-22	30-Apr-23	Benchmark	
Return on Asset	-0.52%	2.34%	0.81%	Minimum of 1.21	

Net loss for the year was driven by lower operating results and higher interest expense.

E. Return on Equity*

•	31-Oct-23	31-Oct-22	30-Apr-23	Benchmark
Return on Equity	-5.05%	16.88%	6.58%	Minimum of 8%

Net loss for the year was driven by lower operating results and higher interest expense.

- * Net debt refers to total loans and borrowings less cash and cash equivalents
- ** Based on last twelve months returns

Material Changes in Accounts

A. Trade and other receivables

Mainly from timing of collection of sales.

B. Inventories

Mainly driven by higher volume and higher cost of production

C. Loans and borrowings

Driven by higher short-term loans for working capital requirements.

D. Trade and other current liabilities

Driven by higher trade payables in the US

Liquidity and Covenant Compliance

Certain unsecured bank loan agreements contain various covenants that are typical of these types of facilities such as financial covenants relating to required debt-to-equity ratio, interest cover, and maximum annual capital expenditure restrictions.

The following financial covenants apply to the Company and its subsidiaries, as Borrower.

• For the US\$90.0 million senior notes, the fixed charge coverage ratio shall not fall below 2.25 times.

The following financial covenants apply to the Company and its subsidiaries, as Borrower, excluding DMFHL and its subsidiaries.

- For the US\$57.3 million loan and US\$75.0 million loan from Development Bank of the Philippines (DBP), the debt shall not exceed 3 times the equity.
- For the US\$30.0 million loan from Bank of Commerce (BOC), interest coverage ratio shall not fall below 2.0x and the debt shall not exceed 3 times the equity.
- For the Php1.5 billion loan and Php3.0 billion loan from DBP, Php5.8 billion loan from BDO and DMPI bonds, DMPI's debt service coverage ratio shall not fall below 1.2x and its debt shall not exceed 2.5 times the equity.

The Group monitors its liquidity risk to ensure that it has sufficient resources to meet its liabilities as they become due, under both normal and stressed circumstances without incurring unacceptable losses or risk to the Group's reputation. The Group maintains a balance between continuity of cash inflows and flexibility in the use of available and collateral free credit lines from local and international banks and constantly maintains good relations with its banks, such that additional facilities, whether for short or long term requirements, may be made available.

REVIEW OF OPERATING PERFORMANCE

Second Quarter

The Group generated sales of US\$667.1 million for the second quarter of FY2024, lower by 4.6% versus the prior year quarter, mainly driven by lower co-pack sales in the US, and lower export sales of fresh and packaged pineapple and other products.

The Group's US subsidiary, Del Monte Foods Inc. (DMFI), achieved sales of US\$494.6 million or 74% of Group turnover. DMFI's revenues declined by 2.3% driven by strategic exit from lower margin co-pack business (packing for other manufacturers), lower sales of plastic fruit cups and canned fruits, partly offset by price increases across branded and non-branded categories. New products launched in the past three years contributed 7.0% to DMFI's total sales in the second quarter.

DMFI grew its leading market share positions across its core businesses of canned fruit, vegetable and tomato.

However, DMFI generated a gross profit of US\$94.4 million, lower by 33.4% versus prior year quarter's US\$141.8 million. Gross margin was 19.1% versus the prior quarter's 28.0%. Cost was significantly impacted by unfavorable

³ Gearing = Net Debt / Equity

⁴ Adjusted EBITDA = Last twelve months without one-off items

cost from the sale of high cost FY2023 inventory which was inflated due to high metal, raw produce and logistics cost, as well as continued commodity price volatility.

DMPL ex-DMFI generated sales of US\$178.7 million (inclusive of the US\$5.9 million sales by DMPL to DMFI which were netted out during consolidation), 13.6% lower than the US\$206.9 million sales in the prior year quarter. Lower exports of fresh and packaged pineapple and other products were impacted by lower pineapple supply for the second quarter as majority of fruits had matured or ripened early and were thus harvested in the first quarter. Pineapple supply is expected to improve in the fourth quarter.

DMPL ex-DMFI delivered a lower gross margin of 22.5% from 30.1% in the same period last year as overall pricing improvements were offset by higher product costs brought about by lower plantation supply and inflationary factors as it sells through higher cost inventory from FY2023.

Philippine market delivered sales of US\$107.8 million, 1.5% lower in peso terms but flat in US dollar terms. Sales in the culinary and beverage segments experienced growth, driven by the launch of strategic campaigns. Spaghetti Sauce Birthday Campaign including the Limited-Edition Birthday Collectibles resonated well with consumers as it reinforced Del Monte's value amidst the inflationary environment. Del Monte juices launched a youth recruitment campaign aimed at redefining its brand proposition to align with today's dynamic beverage landscape. Del Monte also strengthened its market leadership in key product categories, including packaged pineapple, mixed fruits, and spaghetti sauce behind programs driving occasion-based messaging, versatile recipe usage and expansion of value-for-money package formats. Foodservice and convenience store channels continued their growth momentum with sales up 15.5% and 13.2%, respectively, on new accounts, outlets and menu ideas.

Sales in the international markets declined on both reduced fresh and packaged sales. Lower fresh sales were driven by lower pineapple supply, as discussed above, which offset favorable sales mix (on the back of increased sales of premium higher-margin S&W Deluxe fresh pineapples) as well as better pricing. Packaged sales decreased with lower sales in USA due to their inventory correction and unserved demand in other markets due to lower pineapple fruit supply. S&W participated in large trade fairs in Hong Kong and Guangzhou to meet current and potential customers and to further expand S&W's footprint in China. In Europe, Frozen Pineapple Chunks were launched in Ireland by the Group's customer, Green Isle, as one of their latest additions to their perfect-for-lunchbox and on-the-go fruit snacks range. These are now available in all major retail stores in Ireland.

DMPL's share in Del Monte Foods Private Limited (formerly FieldFresh), the joint venture in India, was a US\$0.2 million profit which was higher than prior year quarter's share in profit of US\$0.1 million. This was mainly driven by continued margin improvements both from price increases coupled with strategic sourcing of key raw materials.

DMFI delivered an EBITDA of US\$38.6 million, down 55.3% versus the US\$86.5 million in the prior year quarter driven by reduced margins from significantly high cost, and lower volume as discussed above partly offset by lower administration cost. Consequently, DMFI generated a net loss of US\$3.5 million, versus prior year quarter's net profit of US\$37.8 million.

DMPL ex-DMFI generated an EBITDA of US\$24.3 million, lower by 33.9%, and a net profit of US\$1.9 million lower by 88.9% versus the US\$17.5 million last year mainly driven by lower volume attributed to lower pineapple supply and lower shipment to the US.

The Group generated an EBITDA of US\$63.9 million which was lower than the prior year's US\$124.4 million mainly driven by unfavorable operating results from both DMFI and DMPL ex-DMFI. The Group incurred a net loss of US\$8.5 million versus the prior year quarter's net profit of US\$49.5 million.

The Group's cash outflow from operations in the second quarter was US\$91.8 million, better than last year's cash outflow of US\$158.4 million. This was mainly driven by lower additions to inventory and accounts receivable. Lowering inventory and working capital is a key priority in FY2024 and FY2025.

First Half

The Group generated sales of US\$1.2 billion for the first half of FY2024, higher by 2.4% versus the prior year period driven by higher sales in the US.

The Group's US subsidiary, Del Monte Foods Inc. (DMFI), achieved sales of US\$851.0 million or 72% of Group turnover. DMFI's revenues grew by 5.2% driven by pricing actions in FY2023 and in August this year, as well as

favorable sales mix from higher branded sales partly offset by lower sales from the non-strategic co-pack business and higher trade spends.

Innovation helped fuel the company's growth led by the success of its new JOYBA Bubble Tea brand which was named by the Refrigerated and Frozen Food Awards as one of the Best New Retail Products for 2023. In addition, Del Monte's new Gut Love and Boost Me Fruit Cup Snacks were recognized as Snack Products of the Year by the 2023 Mindful Awards.

New products launched in the past three years contributed 7.6% to DMFI's total sales in the first half.

DMFI generated a gross profit of US\$159.1 million, lower by 27.7% than prior year period's US\$220.2 million. Gross margin at 18.7% declined from 27.2%. This was mainly driven by inflationary factors coming from sales of high cost FY2023 pack inventory, and incremental cost from commodity price volatility.

DMPL ex-DMFI generated sales of US\$345.7 million (inclusive of the US\$12.3 million sales by DMPL to DMFI which were netted out during consolidation), 9.2% lower than the US\$380.6 million sales in the prior year period. This was mainly driven by lower pineapple supply as explained above which drove lower exports of pineapples and other packaged products in the second quarter, as well as lower shipments to the US.

DMPL ex-DMFI delivered a lower gross margin of 24.3% from 30.2% in the same period last year as overall pricing improvements were offset by higher product costs brought about by lower plantation supply, resulting in lower cannery tonnage and unfavorable absorption, and higher cost rate for inventory sold from FY2023.

Philippine sales of US\$183.7 million were 1.2% higher in peso terms but marginally flat in US dollar terms due to peso depreciation. Higher sales were driven by strong performance in foodservice and convenience store channels which grew by 18.4% and 12.2%, respectively, while e-commerce sales almost tripled.

Fresh sales declined by 8.5%, driven by lower pineapple supply in the second quarter. This was partly offset by increased sales of premium S&W Deluxe fresh pineapples and pricing action to offset inflation. S&W, along with a major distributor partner, held the first ever S&W Pineapple Festival in China covering more than 300 retail stores and 9 wholesale markets to communicate S&W's strong commitment to the Chinese market and showcase its innovative products. S&W Deluxe fresh pineapple was also launched for the first time in select retail outlets in Metro Manila. S&W Frozen Pineapple Stick for consumption as a popsicle was launched in 7-Eleven Taiwan.

Sales of packaged pineapple declined by 27.9% mainly due to reduced shipments to USA. As a result of this, total international market sales of US\$138.9 million were lower by 18.5%.

DMPL's share in Del Monte Foods Private Limited (formerly FieldFresh), the joint venture in India, was a US\$0.3 million profit which declined from prior year period's share in profit of US\$0.7 million (which included a one-off miscellaneous income from the sale of its Fresh business). The India joint venture continued to deliver improved profitability through better margins because of price increases to address inflation, and better sourcing of key raw materials.

DMFI delivered an EBITDA of US\$64.1 million, down 47.7% versus the US\$122.5 million in the prior year period due to margin declines from the impact of unprecedented inflation last year which was carried in inventories sold during the first half of FY2024. DMFI generated a net loss of US\$12.8 million, higher than the prior year's net loss of US\$4.4million mainly due to margin declines, as discussed, partly offset by lower administrative costs.

DMPL ex-DMFI generated an EBITDA of US\$50.1 million, lower by 28.1%, and a net profit of US\$6.4 million lower by 81.5% versus the US\$34.6 million last year mainly driven by decline in margins partly offset by lower distribution and administrative costs.

The Group generated an EBITDA of US\$115.0 million which was lower than the previous year's US\$194.5 million mainly driven by unfavorable operating results from both DMFI and DMPL ex-DMFI. The Group incurred a net loss of US\$21.6 million versus the prior year period's net profit of US\$19.0 million.

The Group's net debt/adjusted EBITDA increased to 9.6x from 5.6x last year and gearing to 6.8x from 4.5x due to debt servicing, higher loans and reduced equity from the redemption of DMPL's US\$100 million Series A-2 Preference Shares in December 2022, and higher working capital, mainly DMFI's inventory primarily to build up for the peak season, and lower sales than plan.

Although debt levels had gone up, the refinancing of the US\$300 million Preference Shares with bank loans at an average interest rate of 6.80% versus the Preference Share coupon of 10% on a step-up basis if not redeemed, saves the company about US\$10-11 million annually.

Despite a lower profit for the period, the Group's cash outflow from operations in the first half was US\$38.3 million, better versus last year's US\$153.4 million mainly driven by lower increase in inventory and accounts receivable.

The Group had negative working capital as of 31 October 2023 amounting to US\$14.5 million which was an improvement against the negative working capital of US\$205.3 million as of 30 April 2023.

VARIANCE FROM PROSPECT STATEMENT

The first half results were below expectations. The Group expects to have weaker results this year versus FY2023 driven by slower than planned category growth both in US and Philippines although market shares continue to be strong. The Group has also been impacted by unprecedented inflationary conditions since FY2023, unfavorable weather impacting the pineapple operations in particular and increased inventory.

BUSINESS OUTLOOK

The global environment remains uncertain with consumers being more cautious with their spending while inflation has not abated to normal levels. It is more imperative to offer superior brand and product value to consumers.

The Group is expecting to deliver higher branded revenue growth in FY2024.

In the US, our Company will continue to accelerate its transformation into a leading, innovative consumer packaged goods company focused on building brands. As we grow our core products, we will also expand our portfolio of newer brands JOYBA in bubble tea, Take Root Organics in culinary and Kitchen Basics in stock and broth. Innovation and expanded distribution in several high growth channels will continue to be drivers of growth. We continue to scale up our premium MD2 fresh pineapple production in the Philippines to sustain the export growth of these products and our market leadership in North Asia.

We will remain vigilant in managing our operating expenses throughout the supply chain from production to distribution with better operational and energy efficiency, optimized packaging, and reduced wastage.

The Group is addressing the high carryover inventory levels from FY2023 by reducing the pack in the US for the next two years, i.e. FY2024-25. The correction in inventory will need to be done over the next 9 to 12 months and will include lowering the FY2024 pack across all major segments. Groupwide gross margin will also benefit in FY2025 from the inventory reduction plan in the US (with lower waste of aging items, lower trade spend to liquidate stocks and lower warehousing costs) while DMPL ex-DMFI benefits in the second half of FY2024 from the restoration of productivity in our processed pineapple operations.

With the planned cut in production in FY2025 to reduce or normalize inventory, the Group will have an unfavorable impact from fixed costs that will be spread over lower volume. This unfavorable impact from fixed plant costs will be offset by the efficiencies outlined above from lower inventory.

Reducing leverage and interest expense is a key imperative and we are exhausting all options to strengthen our capital structure.

In light of the persistent gloomy global economic outlook, the Group anticipates that FY2024, notwithstanding the higher branded sales growth, will be a year during which the company focuses on reducing inventory and further lowering operating costs. DMPL has taken the decision to revise its earlier guidance. It now expects to incur a loss in this financial year.

Americas

Sales in the Americas decreased by 1.7% to US\$498.9 million, driven by strategic exit from lower-margin co-pack products, and lower sales of plastic fruit cups and canned fruits partly offset by price increases across branded and non-branded categories. Operating profit was down 62.0%, driven by significantly high cost, and lower sales as discussed partly offset by lower administration cost.

Asia Pacific

Asia Pacific's sales in the second quarter declined by 10.7% to US\$158.5 million from US\$177.4 million driven by lower export sales of fresh and packaged pineapple and other products which were largely due to lower pineapple supply.

In the Philippines, sales were marginally flat versus prior year's quarter in US dollar terms and declined by 1.5% in peso terms as growth in beverage and culinary segments was offset by declines in packaged fruit and new products.

Europe

For the second quarter, Europe's sales decreased by 31.1% to US\$9.7 million from US\$14.0 million on lower sales across branded categories.

Americas

Sales in the Americas grew by 5.8% to US\$857.9 million, driven by pricing actions in FY2023 and in August this year, as well as favorable sales mix from higher branded sales partly offset by lower sales from the non-strategic co-pack business and higher trade spends.

Asia Pacific

Asia Pacific's sales in the first half declined by 4.7% to US\$307.8 million from US\$323.0 million driven by lower export sales of fresh and packaged pineapple and other products which were largely due to lower pineapple supply.

In the Philippines, sales were higher in peso terms but marginally flat in US dollar terms due to peso depreciation. Higher sales were driven by strong performance in foodservice and convenience store channels which grew by 18.4% and 12.2%, respectively, while e-commerce sales almost tripled.

Europe

For the first half, Europe's sales decreased by 16.2% to US\$18.2 million from US\$21.7 million on lower sales across all branded categories.

DMPI's Product segments

Convenience Cooking and Dessert

This segment includes sales of packaged tomato-based and non-tomato-based products, such as tomato sauce and paste, spaghetti sauce, ketchup, pasta sauce, recipe sauce, pizza sauce, pasta, broth and condiments, sold under the *Del Monte* and *Contadina* brands and soy sauces under the *Kikkoman* brand as part of an exclusive distributorship arrangement for the Philippines. This category also includes packaged pineapple solids and tropical mixed fruit products sold within the Philippines under the *Del Monte, Fiesta* and *Today's* brands.

Healthy Beverages and Snacks

Healthy beverages which are sold in the Philippines under the *Del Monte* brand include ready-to-drink juices, fruit and vegetable juice drinks, and pineapple juice concentrate in various packaging formats, including Tetra Pak and PET. DMPI's hallmark product in the beverage segment is *100% Pineapple Juice*, including derivations thereof, such as *100% Pineapple Juice* that is enriched with additional vitamins, fiber or calcium or that is specifically developed to help manage cholesterol. In addition, the beverage segment covers juice drinks made from other fruits, vegetables, herbs and botanicals, such as *Tipco* juice, and DMPI's *Fit 'n Right* products, which are drinks fortified with green coffee extract (an antioxidant-containing supplement derived from unroasted raw coffee beans, which is believed to improve blood pressure and cholesterol levels) to help reduce sugar absorption from food and L-carnitine (a chemical compound similar to an amino acid that is produced by the body and which helps the body to metabolize fat into energy) to assist in fat metabolism.

Packaged Fruits and Beverages - Export

This segment includes packaged fruit and beverages products sold internationally.

Packaged Fruit

Packaged fruit includes sales of fruit products that are packaged in different formats such as can, plastic cup, pouch and aseptic bag, and which are sold under the S&W brand and the *Del Monte* brand for parties who have the license rights to *Del Monte* in other markets, as well as under the private labels of non-affiliated parties. A portion of MD2 pineapples that are not exported as fresh fruit are used to produce *Nice Fruit* frozen pineapple products and not-from concentrate juices or packaged as a premium version of DMPI's *Del Monte*-branded packaged pineapples, *Deluxe Gold*. *Deluxe Gold* products, which were launched in May 2020, are exported primarily to the United States through an affiliate.

Beverages

Beverages includes sales of 100% Pineapple Juice and juice drinks in various flavors in can and Tetra Pak packaging and pineapple juice concentrate. In addition, this segment also covers not-from-concentrate juices. Not-from concentrate juice is prepared solely from the juice of whole pineapple at DMPI's Not-From-Concentrate juicing plant and contains no additional ingredients. DMPI produces 100% MD2 Not-From-Concentrate pineapple juice for export to certain countries within Asia for industrial use and for resale to consumers under buyer's own labels.

Premium Fresh Fruit

Premium Fresh Fruit category include sales of S&W-branded premium fresh pineapples in Asia Pacific and private label or non-branded MD2 and C74 fresh pineapples in Asia. DMPl's key product in the Premium Fresh Fruit segment is the MD2 pineapple variant, which is the main export product and sold under the "S&W Sweet 16" brand.

Others

The cattle operation helps in the disposal of pineapple pulp, a residue of pineapple processing which is fed to the animals. This also includes culinary products sold internationally.
