### **AUDIT**

Fourth Quarter FY2026 results covering the period from 1 February 2026 to 30 April 2026 have neither been audited nor reviewed by the Group's auditors.

### **ACCOUNTING POLICIES**

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's FY2025 annual consolidated financial statements, except for the adoption of the following amendments effective beginning 1 May 2025. Adoption of these new standards did not have any significant impact on the Group's consolidated financial statements.

- Amendments to International Accounting Standard (IAS) 1, *Classification of Liabilities as Current or Non-current*
- Amendments to IFRS 16, *Lease Liability in a Sale and Leaseback*
- Amendments to IAS 7 and IFRS 7, *Disclosures: Supplier Finance Arrangements*

The Company's unaudited interim condensed consolidated financial statements as of 30 April 2026 and for the three months ended 30 April 2026 and 2025 are prepared in accordance with IAS 34, *Interim Financial Reporting*, and should be read with the 2025 annual audited consolidated financial statements.

## DISCONTINUED OPERATIONS AND DECONSOLIDATION OF U.S. SUBSIDIARY

As announced on 31 July 2025, considering the board changes at DMFHL and its subsidiaries since May 2025, and the voluntary Chapter 11 filing of DMFHL that included a contemplated sale process, the DMPL Board had decided to classify the U.S. operations as “discontinued operations”, as per IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations*, effective 30 April 2025.

Assets and liabilities, specifically associated with the discontinued business, were classified as “Assets held for disposal” and “Liabilities directly associated with assets held for disposal” in the consolidated balance sheet at the end of FY2025. In view of the losses of DMFHL’s operating subsidiary DMFC in FY2024 and FY2025, and continuing adverse U.S. macroeconomic conditions, the Group had recognised a full impairment of related current and long-term assets in DMFHL amounting to US\$703.5 million, resulting in a complete write-down in FY2025 of its investment and other assets in the U.S. subsidiaries in line with DMPL’s announcements on 5 May and 2 July 2025.

In addition, effective 1 May 2025, DMPL had deconsolidated DMFHL and its subsidiaries from the Group’s consolidated financial statements in accordance with IFRS 10, *Consolidated Financial Statements*. The deconsolidation resulted in the derecognition of the U.S. operations’ assets and liabilities, reducing the Group’s consolidated liabilities by approximately US\$1.5 billion.

For comparability, the consolidated profit and loss and cash flow statements for the fourth quarter and the twelve months ended in FY2025 were restated to reflect the U.S. operations as discontinued operations at the beginning of the year.

Subsequent to the Group’s deconsolidation of DMFHL as aforementioned, the United States Bankruptcy Court for the District of New Jersey issued orders on 20 February 2026 approving (i) a settlement among the debtors, certain lender groups, the unsecured creditors’ committee and other stakeholders, and (ii) the sale of substantially all operating assets of the relevant entities pursuant to Section 363 of the U.S. Bankruptcy Code. The settlement is expected to be implemented through a proposed Chapter 11 plan, which remains subject to confirmation by the U.S. Bankruptcy Court and the satisfaction of customary conditions.

On 18 May 2026 (U.S. time), the United States Bankruptcy Court confirmed the Chapter 11 plan of reorganisation (the “Plan”) for the relevant debtor entities. Following confirmation, certain minority lenders indicated their intention to appeal the confirmation order and sought a stay of its effect pending appeal.

On 2 June 2026 (U.S. time), the Bankruptcy Court denied the minority lenders’ application to extend the stay pending appeal. The minority lenders subsequently sought equivalent relief before the U.S. District Court. At a status conference held on 10 June 2026 (U.S. time), the District Court did not block the Plan from taking effect and indicated that it was unlikely to grant a further stay. Accordingly, barring any intervening order from the District Court or the U.S. Court of Appeals for the Third Circuit, the Plan is expected to become effective shortly.

There is no assurance as to the final outcome of the pending appeal or any further proceedings. As previously disclosed, the Company does not expect to realise any recovery in respect of its equity interests in the relevant debtor entities, which were fully impaired in FY2025 and deconsolidated from the Group effective 1 May 2025 in accordance with IFRS 10. The developments described above are not expected to result in any material change to the financial impact previously disclosed by the Company.

## REVIEW OF OPERATING PERFORMANCE

### Fourth Quarter

DMPL achieved sales of US\$213.7 million, an increase of 11.4% from US\$191.9 million reported in the same quarter last year. The growth was driven primarily by higher international market sales, with fresh pineapple sales growing by 18.1%. Total International sales increased by 16.5%. Philippine sales also increased, driven by growth across key categories.

The Philippine market achieved sales of US\$75.1 million, up 5.9% in peso terms and 3.8% in US dollar terms led by beverage, culinary, dairy and snacks. Higher volume of *Del Monte 100% Pineapple Juice*, *Fruity Zing Juice Drink* and *Tomato Paste*, as well as pricing to offset inflation boosted sales. The Group capitalised on the summer months with its *Del Monte Juice Drinks* offering delicious real fruit goodness for a refreshing summer, while it engaged online influencers to promote *Del Monte Halo-Halo Mix* for family enjoyment at home. Del Monte Philippines also launched its newest *Tipco* variant – *Tipco ABC Juice*, made from 100% Apple, Beetroot and Carrot to support healthy and youthful glow. *Tipco ABC Juice* sponsored Miss Universe Philippines 2026.

Sales in the international markets grew by 16.5% to US\$118.4 million led by higher volume of fresh pineapple, packaged products, Not from Concentrate juice and frozen pineapple. Fresh pineapple maintained its strong momentum, growing by 18.1% on continued higher sales of the *S&W Deluxe Pineapple* variety. Exports of packaged pineapples also grew by 11.1%, driven by favourable pricing and better sales mix.

Good me, China's No. 1 fresh fruit tea chain with over 14,500 shops, launched a new refreshing fruit drink – the *Pineapple-Apple Mixed Juice*. This new drink featured S&W fresh pineapple as a key ingredient for its aroma and enticing golden colour. Meanwhile, Yum China (the parent company of Pizza Hut and KFC) entered into the burger business with V-Burger, and it featured *S&W Deluxe Pineapple* as one of its banner ingredients. S&W fresh pineapple had entered all 243 Seiyu stores in Japan, while *S&W Real Mayonnaise* was launched in several stores in Indonesia.

DMPL delivered a higher gross margin of 33.4% from 29.7%, an improvement of 370 basis points from the same quarter last year. The margin improvement was primarily driven by pricing initiatives, particularly in the Philippines and Fresh segments to offset inflation. Gross margin also benefited from an improved sales mix, mainly from higher-margin *S&W Deluxe Pineapple* as well as processed pineapple products. These gains were partially offset by higher product costs, driven by inflationary pressures on logistics expenses, primarily due to higher fuel prices during the quarter.

DMPL generated EBITDA of US\$47.6 million, up 43.2% from US\$33.2 million in the same period last year, due to higher sales and improved gross margin. The operating profit in the prior year quarter of US\$63.2 million included a gain recognised from the India share swap transaction of US\$40.8 million. Excluding this gain, this quarter's operating profit of US\$38.9 million was 73.8% higher than the US\$22.4 million comparable operating profit in the same period last year.

Last year, the Group had a write-down of US\$703.5 million for its investment in the U.S. which led to the net loss of US\$704.1 million. Excluding the write-down, this quarter's net profit of US\$10.1 million rose 3.5x from the US\$2.9 million comparable net profit in the prior year quarter, reflecting stronger operating performance across all market segments.

Cash flow from operations was US\$65.2 million, down from US\$94.5 million in the prior year period. The decrease was mainly attributable to higher payables settlements as part of the Company's working capital management initiatives. Despite the lower operating cash flow, the Company continued to generate positive cash flow, supported by improved inventory management and stronger operating profitability.

The Group's financial position reflects the impact of the abovementioned U.S. write-down under discontinued operations, resulting in a negative equity position at the end of FY2025 and FY2026, and a negative net debt-to-equity ratio of 1.7x. As of 30 April 2026, the Group reported a net capital deficit of US\$589.9 million. In addition, the Group's current liabilities exceeded its current assets by US\$787.2 million.

**Subsequent Event:** On 4 June 2026, DMPL India Limited (Mauritius), an indirect subsidiary of the Group, completed the disposal of its remaining 1.88 million shares in Sundrop Brands Limited pursuant to the exercise of a put option. The transaction generated gross proceeds of approximately US\$14.1 million, which will be used to support the Group's working capital and debt obligations.

### **Full Year Ended 30 April 2026**

DMPL achieved sales of US\$896.1 million, 13.5% higher than the US\$789.5 million in the prior year, driven by strong growth in international exports of fresh and packaged pineapple products and higher sales from the Philippines.

The Philippine market generated sales of US\$397.8 million, up 7.9% in peso terms and 7.5% in US dollar terms versus the prior year. The increase was driven by higher sales across all key categories including packaged fruit, beverage, culinary and new product offerings, favourable pricing, and sustained demand across general trade, modern trade and foodservice channels.

In beverages, Del Monte continued to strengthen its leadership through functional campaigns for *100% Pineapple Juice*, led by the *Heart Smart* variant which reinforced juice as part of a heart-healthy daily habit. Functional benefits such as digestive wellness with *Fiber Enriched Juice* and immunity-building with *ACE Juice* also contributed to sustaining relevance with health-conscious consumers. Innovation further supported growth with the successful launch of *Fruity Zing* and *Fit 'n Right Green Apple*, which expanded the Company's footprint in the ready-to-drink PET segment and captured younger, lifestyle-driven consumers. The Company also launched its newest *Tipco* variant – *Tipco ABC Juice*, made from 100% Apple, Beetroot and Carrot to support healthy and youthful glow.

In culinary essentials, Del Monte drove penetration by positioning *Tomato Sauce* as a nutrient-rich ingredient with lycopene, vitamins A and C, and iodine to improve family nutrition. This was supported by the nationwide Nutri-licious advocacy, which aligned the brand with the national agenda of addressing malnutrition by promoting nutritious, delicious, and affordable meals for everyday consumption.

In packaged fruits, Mixed Fruits increased market share by extending usage beyond holiday occasions into year-round celebrations and everyday desserts. *Del Monte Halo-Halo Mix* continued to be promoted for family enjoyment at home.

At the same time, nutrition-led campaigns expanded the role of pineapple as a superfruit for everyday cooking, highlighting its phytonutrients that support immunity when paired with proper diet and exercise. This broadened positioning reinforced Del Monte as both a wellness advocate and a trusted partner in daily family meals.

Del Monte sustained market leadership across key categories in the Philippines, growing shares in spaghetti sauce and packaged fruit.

Del Monte Philippines celebrated its centennial last January 2026 through a series of initiatives that underscored the enduring legacy of Del Monte brand in the Philippines, highlighting a century of 'Nourishing Goodness'.

International sales grew by 15.6% to US\$417.0 million, primarily driven by robust demand for fresh pineapple in China, Japan and the Middle East. The growth was supported by higher export volume and improved pricing. The premium *S&W Deluxe Pineapple* continued to grow and accounted for a higher share of the Company's exported fresh pineapple. Increase in fresh-cut packs in China also boosted demand for the Company's pineapple. In recognition of its market presence, S&W was awarded "Supplier of the Year" by Good me, China's biggest fruit tea chain with more than 14,500 stores across the country. In Japan, fresh pineapple sales increased by 22.6% due to higher demand for fresh-cut pineapple in retail, as well as the entry of *S&W Deluxe Pineapple* in all of Seiyu's 243 outlets.

The Company sustained its market leadership for fresh pineapple in North Asia and achieved a 55% share, up 3 percentage points.

In the packaged segment, the Company launched the *Del Monte Halo-Halo Mix* in Australia in September last year. In addition, *S&W Pineapple Slices* and *S&W Fiesta Fruit Cocktail* were featured in various promotional items of McDonalds in Hong Kong through a collab drink, and burger with pineapple in over 250 stores all over Hong Kong. New product *NFC Pineapple Juice* sales rose significantly by 71% due to demand with better supply this year.

With the rising global trend on healthy snacks, the Company's frozen pineapple sales grew by 12.1%. *Nice Fruit Pineapple Sticks* are now sold in more foodservice channels such as McDonald's Middle East and Europe, Burger King Spain, KFC Europe and 7-Eleven Japan. IQF Pineapple Rings, Chunks and Sticks are sold in tea shops and restaurants in China, school cafeteria, military catering, foodservice, e-commerce and retail shops in South Korea, foodservice in Europe, as well as nursing homes and hospitals in Japan.

DMPL delivered a higher gross margin of 33.2% compared with 28.4% last year, representing an improvement of 484 basis points. The margin expansion was primarily driven by pricing actions to offset inflation, lower product cost, and a more favourable sales mix across markets, particularly from higher-priced *S&W Deluxe Pineapple* exports. The improvement was driven mainly by the Philippines, Fresh, and International Processed segments, partly offset by higher sales deductions and discounts.

DMPL reported EBITDA of US\$181.1 million, higher by 26.2% against last year, while operating profit rose 10.1% to US\$161.5 million from US\$146.7 million. Last year's operating profit included a gain of US\$40.8 million, as discussed earlier. Excluding the gain, this quarter's operating profit grew by 52.6% on a comparable basis.

Net profit rose to US\$48.4 million, a significant improvement from last year's US\$8.0 million (excluding the U.S. write-down and India share swap gain), reflecting stronger sales, gross margin expansion, and an improved operating income. These gains were partly offset by unrealised foreign exchange losses, driven by the impact of the weaker Philippine peso on year-end translation. Last year, the Group had a write-down of US\$703.5 million for its investment in the U.S. which led to the reported net loss of US\$796.4 million.

DMPL's net debt/adjusted EBITDA improved to 5.4x from 7.2x in the prior year, reflecting stronger operating performance and lower debt level. Net debt declined by 5.5% to US\$977.0 million, supported by positive cash flow and continued debt-reduction initiatives. Net debt to equity stood at negative 1.7x, as shareholders' equity remained negative following the write-down of investments and other assets associated with the discontinued U.S. business in FY2025. The U.S. entities were fully deconsolidated effective FY2026.

Cash flow from operations was US\$286.0 million, lower than last year's US\$332.8 million, mainly driven by higher inventory from higher pineapple volume than planned, and a decrease in overdue trade payables, increased investment in growing pineapple to support the growth of fresh business (bearer plants).

In December 2025, the Group announced its plan to divest its investment in Sundrop Brands Limited, a non-core asset in India, as part of its efforts to optimise capital allocation and redeploy resources to its core businesses. Subsequently, the Group completed the sale of 1,881,073 shares (4.99%) in December 2025 for proceeds of approximately US\$14.8 million.

In January 2026, the Group also announced an additional sale of 547,946 shares (1.45%) for proceeds of approximately US\$4.3 million, resulting in a combined disposal of approximately 6.44% of its equity interest in Sundrop Brands Limited, and a total loss of approximately US\$2.4 million versus the valuation of these shares last October 2025.

**Subsequent Event:** On 4 June 2026, the Group completed the disposal of its remaining Sundrop Brands shares pursuant to the exercise of a put option, generating gross proceeds of approximately US\$14.1 million.

## VARIANCE FROM PROSPECT STATEMENT

The Group generated a net profit for the year ended April 2026 which was anticipated earlier this year.

## BUSINESS OUTLOOK

The Group remains focused on growing its Asian operations to drive long-term growth and profitability. DMPL's subsidiary, Del Monte Philippines, Inc., continues to perform well, with resilient consumer demand, supported by a strong and stable supply chain.

The strong results for FY2026 demonstrate the strength and growth momentum of DMPL's business in the Philippines and international markets. Following a strong FY2026 performance, DMPL expects the business to achieve profitability in FY2027 although it may experience volatility from the impact of the US-Iran war.

DMPL's immediate key priorities include:

**Volatility in commodity sourcing and costs:** Recent US-Iran war has caused increased volatility. The Group is focused on stabilising supply of critical inputs such as fertilizers and also taking appropriate measures to mitigate the commodity headwinds with appropriate pricing actions across markets, reducing discretionary spend and accelerate productivity initiatives across supply chain. The Group remains vigilant in managing its costs, including reduction of waste and inventory write-offs.

**Philippines:** Reinforce market leadership in beverage, culinary and packaged fruit; launch new products in new segments to broaden consumer base; and expand in growth channels of convenience stores, away-from-home, drugstores and schools.

**International:** Maintain market leadership in Fresh MD2 Pineapple across North Asia.

**Operations:** Proactively mitigate the impact of El Niño on the supply and quality of pineapple.

**Capital Structure:** The Company continues to pursue an integrated restructuring framework involving its principal creditors and stakeholders, designed to systematically deleverage Del Monte Philippines, Inc. while preserving its operational and financial integrity as DMPL's principal cash-generating asset.

Management believes that the capital deficit at the holding company level, arising from the impairment of its former U.S. subsidiary, does not reflect the financial strength of the Group's core operating business, and intends to implement a structured plan to address the Group's capital structure through a combination of debt restructuring, operational initiatives, and capital measures that benefit the Group.

### AMERICAS

Sales in the Americas decreased by 30.3% to US\$7.7 million, primarily driven by declines across all categories. However, margins remained strong with the removal of transactions with DMFI (lower margin categories).

Americas reported an operating income for the quarter of US\$1.6 million versus the prior year quarter's operating income of US\$1.2 million, driven by higher margins.

### ASIA PACIFIC

Asia Pacific's sales grew by 6.9% to US\$176.9 million from US\$165.5 million, attributed to improved performance across segments driven by higher volume of fresh pineapple, packaged products, NFC juice and frozen pineapple. Fresh pineapple maintained its strong momentum, due to continued higher sales of the *S&W Deluxe Pineapple* variety, improving sales mix, coupled with strong pricing.

In the Philippines, sales were up 5.9% in peso terms and by 3.8% in US dollar terms led by beverage, culinary, dairy and snacks.

### EUROPE

Europe's sales increased by 90.4% to US\$29.1 million, driven by strong performance across almost all categories.

### AMERICAS

Sales in the Americas increased, driven by higher volume particularly for packaged pineapple. The increased sales resulted in the segment generating better operating profit for the year of US\$5.0 million versus the prior period of US\$2.7 million.

### ASIA PACIFIC

Asia Pacific's sales grew by 11.6% to US\$785.8 million from US\$704.1 million, driven by robust demand for fresh pineapples in China, Japan and the Middle East. The growth was supported by higher export volume and improved pricing.

In the Philippines, sales were up by 7.9% in peso terms and 7.5% in US dollar terms versus the prior year. The increase was driven by higher sales across all key categories including packaged fruit, beverage, culinary and new product offerings supported by favourable pricing, higher volume, and sustained demand across general trade, modern trade and foodservice channels.

### EUROPE

Europe's sales increased by 36.3% to US\$80.3 million, driven by an increase in sales across all categories, which contributed to improved operating results.

The Group's net debt (borrowings less cash and bank balances) amounted to US\$977 million as at 30 April 2026, lower than the US\$1.03 billion as at 30 April 2025, primarily due to debt settlements.

## DIVIDENDS

The Group generally declares dividends based on year-end full-year results. The last dividend declaration was in July 2023, based on FY2023 results, and paid on 25 July 2023. No dividend was declared for FY2024 and FY2025 due to the net loss position. However, despite the strong profitability in FY2026, the Group cannot declare dividends due to its negative equity position.

## DMPI's Product Segments

### Convenience Cooking and Dessert

This segment includes sales of packaged tomato-based and non-tomato-based products, such as tomato sauce and paste, spaghetti sauce, ketchup, pasta sauce, recipe sauce, pizza sauce, pasta, broth and condiments, sold under the *Del Monte* and *Contadina* brands and soy sauces under the *Kikkoman* brand as part of an exclusive distributorship arrangement for the Philippines. This category also includes packaged pineapple solids and tropical mixed fruit products sold within the Philippines under the *Del Monte*, *Fiesta* and *Today's* brands.

### Healthy Beverages and Snacks

Healthy beverages which are sold in the Philippines under the *Del Monte* brand include ready-to-drink juices, fruit and vegetable juice drinks, and pineapple juice concentrate in various packaging formats, including Tetra Pak and PET. DMPI's hallmark product in the beverage segment is *100% Pineapple Juice*, including derivations thereof, such as *100% Pineapple Juice* that is enriched with additional vitamins, fiber or calcium or that is specifically developed to help manage cholesterol. In addition, the beverage segment covers juice drinks made from other fruits, vegetables, herbs and botanicals, such as *Tipco* juice, and DMPI's *Fit 'n Right* products, which are drinks fortified with green coffee extract (an antioxidant-containing supplement derived from unroasted raw coffee beans, which is believed to improve blood pressure and cholesterol levels) to help reduce sugar absorption from food and L-carnitine (a chemical compound similar to an amino acid that is produced by the body and which helps the body to metabolize fat into energy) to assist in fat metabolism.

### Packaged Fruits and Beverages – Export

This segment includes packaged fruit and beverages products sold internationally.

#### *Packaged Fruit*

Packaged fruit includes sales of fruit products that are packaged in different formats such as can, plastic cup, pouch and aseptic bag, and which are sold under the *S&W* brand and the *Del Monte* brand for parties who have the license rights to *Del Monte* in other markets, as well as under the private labels of non-affiliated parties. A portion of MD2 pineapples that are not exported as fresh fruit are used to produce *Nice Fruit* frozen pineapple products and not-from-concentrate juices or packaged as a premium version of DMPI's *Del Monte*-branded packaged pineapples, *Deluxe Gold*. *Deluxe Gold* products, which were launched in May 2020, are exported primarily to the United States through an affiliate.

#### *Beverages*

Beverages include sales of *100% Pineapple Juice* and juice drinks in various flavors in can and Tetra Pak packaging and pineapple juice concentrate. In addition, this segment also covers not-from-concentrate juices. Not-from concentrate juice is prepared solely from the juice of whole pineapple at DMPI's Not-From-Concentrate juicing plant and contains no additional ingredients. DMPI produces 100% MD2 Not-From-Concentrate pineapple juice for export to certain countries within Asia for industrial use and for resale to consumers under buyer's own labels.

### Premium Fresh Fruit

Premium Fresh Fruit category includes sales of *S&W*-branded premium fresh pineapples in Asia Pacific and private label or non-branded MD2 and C74 fresh pineapples in Asia. DMPI's key product in the Premium Fresh Fruit segment is the MD2 pineapple variant, which is the main export product and sold under the "S&W Sweet 16" brand.

### Others

The cattle operation helps in the disposal of pineapple pulp, a residue of pineapple processing which is fed to the animals. This also includes culinary products sold internationally.
